Printers, Photocopiers, Print Management Software and Business Software solutions

Case Study

Beanprint offers 24 hour printing services including business cards, leaflets, fliers and now labels.

Chris Chedgroy founder of beanprint.co.uk says It was important in this new product venture that we choose the right supplier who could handle the servicing and support of our printing equipment. We needed a company who could not only supply the equipment but also maintain it to the highest standard with regular servicing and if we did have a problem then could respond in a timely manner.

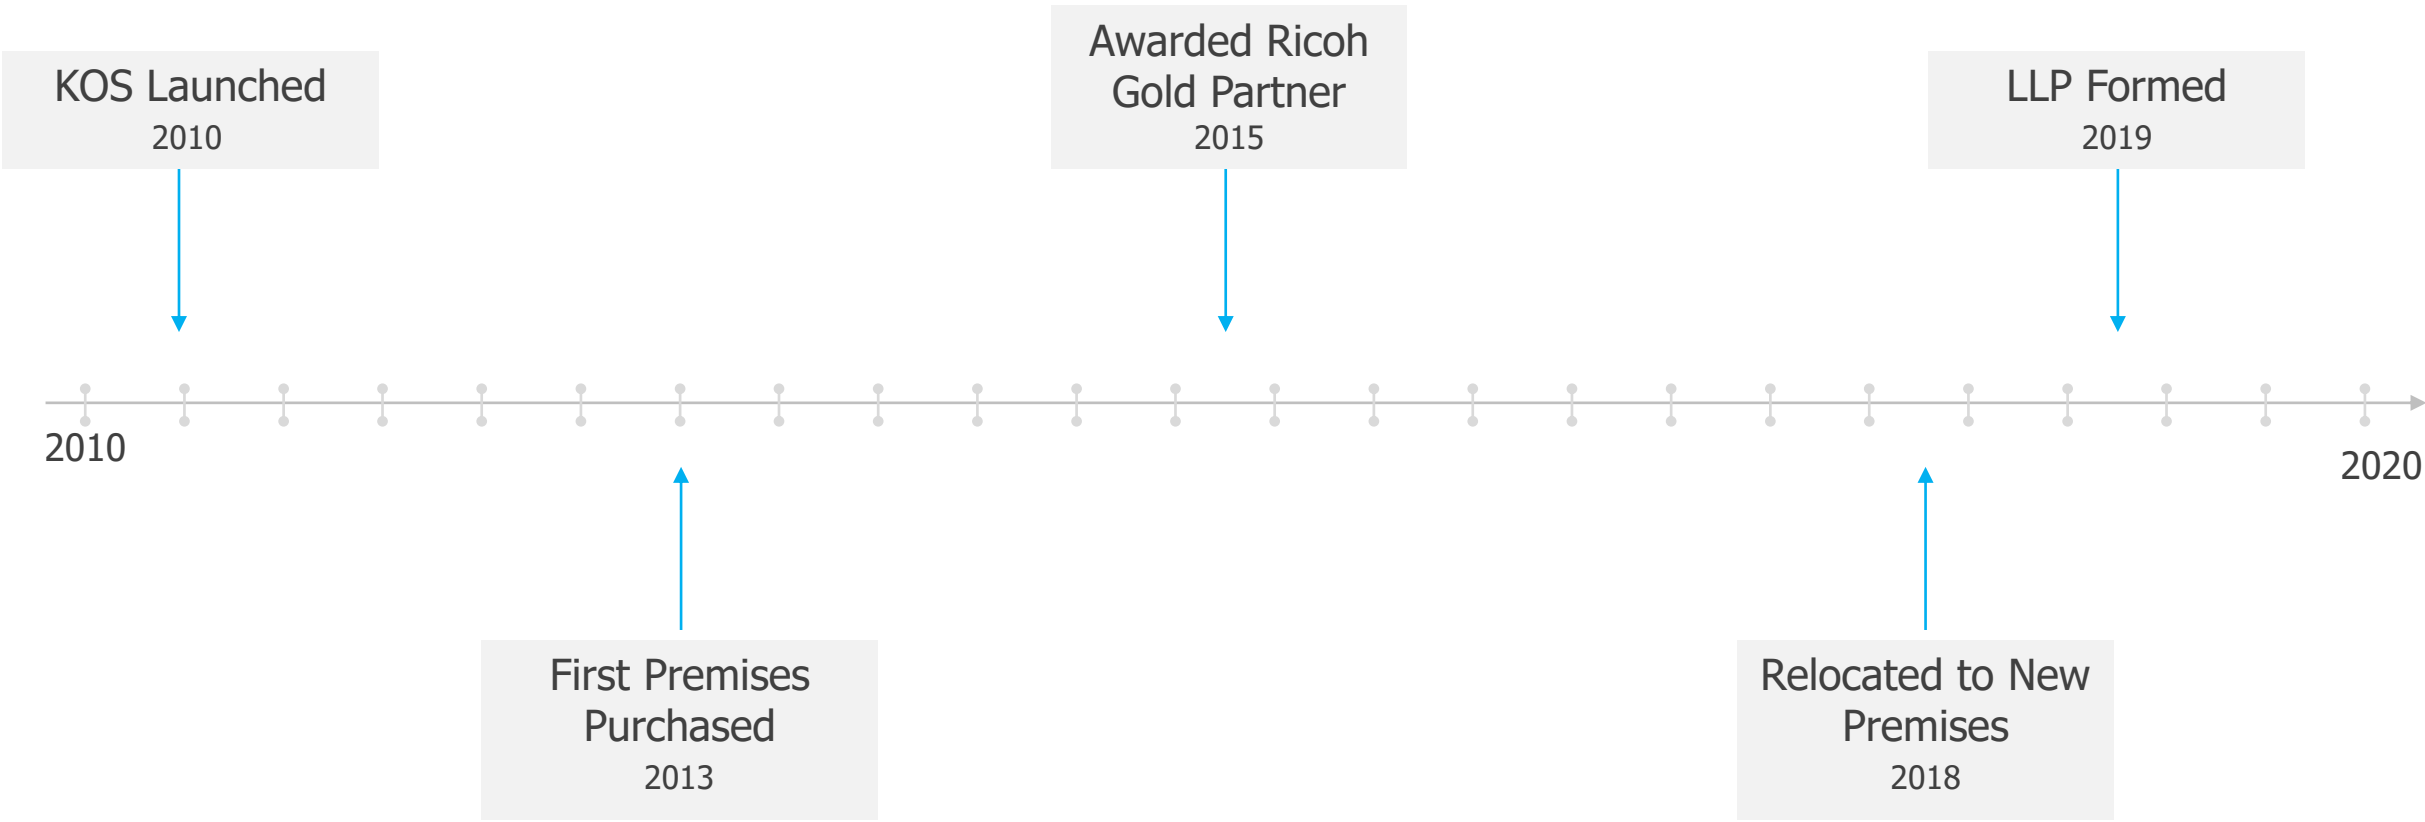

After careful deliberation and expert advice we decided on a Ricoh printing solution. The complete purchase has brought our operation bang up to date and enables us to offer a wide variety of labeling products to the highest quality.

The unbiased advice we have received has been key to us choosing the right equipment within our budget, all has been supplied, installed and serviced though Kingfisher Office Solutions from their Redditch based offices.

Timeline

Summary

We've helped hundreds of businesses; just like yours, save money and work efficiently.

Testimonials

A great team - everyone I've met has been friendly, very approachable and seemed to just want to listen and help more than anything. Very happy with the printer they supplied as well as their service-mindedness..

Richard Howard

Never have I ever come across a more conscientious company. They went above and beyond in assessing my print solution and delivering over my expectations. Reducing my costs substantially in the process. I can not recommend Kingfisher Office Solutions enough

Steve Hawkins

The service provided by Kingfisher Office Solutions is very good. We needed a photocopier in a hurry; they found, delivered and installed a decent machine within two days. The staff were very helpful. I would certainly recommend.
